SUMMARY

As an enthusiastic ASP.NET Core Developer, I am deeply passionate about building robust and scalable web applications using this versatile framework. I thrive on creating efficient backend solutions that power seamless user experiences, and I am skilled in leveraging C#, SQL, and advanced tools like AutoMapper and the Repository Pattern to deliver high-quality results. With a solid understanding of cloud computing and AI-driven solutions, gained through training in AWS Cloud, Azure Fundamentals, Azure AI Fundamentals, and Azure AI Engineer Associate, I am equipped to design and implement modern, cloud-native applications. My goal is to secure a position where I can apply my expertise in web development, cloud integration, and AI technologies to contribute to the success of a forward-thinking organization. I am eager to take on challenges that allow me to grow while delivering innovative and impactful solutions.

EXPERIENCE

AI Internship

MANNAI Corporation   **2 February 2025 – Present**

• Learning Azure Fundamentals, Azure AI Fundamentals, and Azure AI Engineer Associate concepts.

• Workshops on provisioning, securing, monitoring, and deploying Azure AI Services resources, as well as creating Azure AI-based applications.

Back-end internship program

Employme Company   **March 2024 – May 2024**

• Implemented the backend of the company's website using .NET.

Back-end .NET internship

Information Technology Institute   **July 2023 – August 2023**

• 1-month diploma in Back-End .NET Development at the Information Technology Institute (ITI), under the Ministry of Communications and Information Technology.

PROJECTS

LearnHub_WebSite
https://github.com/belal442002/LearnHub

LearnHub, an e-learning platform with ASP.NET Web API, featuring parental monitoring, a dynamic question bank for personalized quizzes, and multilingual quiz correction. Administrators manage courses, users, and records with full control.

EmployMe_WebSite
https://github.com/belal442002/EmployMe

EmployMe, a job-matching platform using ASP.NET Core Web API, connecting companies and job seekers. It offers tiered subscription packages, job postings, employee suggestions, and hiring limits.

PokemonReviewApp
https://github.com/belal442002/PokemonReviewApp

Developed the backend for PokemonReviewApp using ASP.NET Core Web API, enabling Pokémon management, ratings, and custom Pokémon creation linked to gamers.

ShopPal_WebSite
https://github.com/belal442002/ShopPal_WebSite

A feature-rich e-commerce website using ASP.NET Core MVC, offering a seamless shopping experience with secure checkouts, cart management, and order history. Implemented role-based identity management for users and admins.

FawrySystem
https://github.com/belal442002/FawrySystem_WebApi

Developed a secure web API using Spring and Java for recharges and donations, offering Visa payments and a points-based system for rewards. Ensured user safety with robust authentication mechanisms.

EDUCATION

Bachelor's Degree in Computer Science, Information System Department.

- Faculty of Computers and Artificial Intelligence • Cairo University • 2024 • 3.16

SKILLS

Technical: OOP, Git & GitHub, Data Structure & Algorithms, Solid Principles, Design Pattern, Entity Framework, Linq, Dependency Injection, C#, ASP.NET Core (MVC, API, Minimal API, Unit of Work, AutoMapper, Repository Pattern, Generic Repository)

Courses : AWS Cloud, Azure Fundamentals, Azure AI Fundamentals, Azure AI Engineer Associate.
